DriveMate-

VEHICLE ASSISTANCE APP WITH AI-BASED ENGINE COMPLAINT PREDICTION BY ENGINE SOUND RECOGNITION

PROJECT FIRST EVALUATION

Introduction

- It is an AI based Software application that can be used as a complete assistance for every person who use motor vehicles

- The main attractive feature of the DriveMate application is the AI based engine complaint prediction using the engine sounds

- This app also provide features like
  - Digital vehicle document wallet
  - On road fuel delivery
  - Nearby mechanic finding

PLAN OF WORK WITH MILESTONES

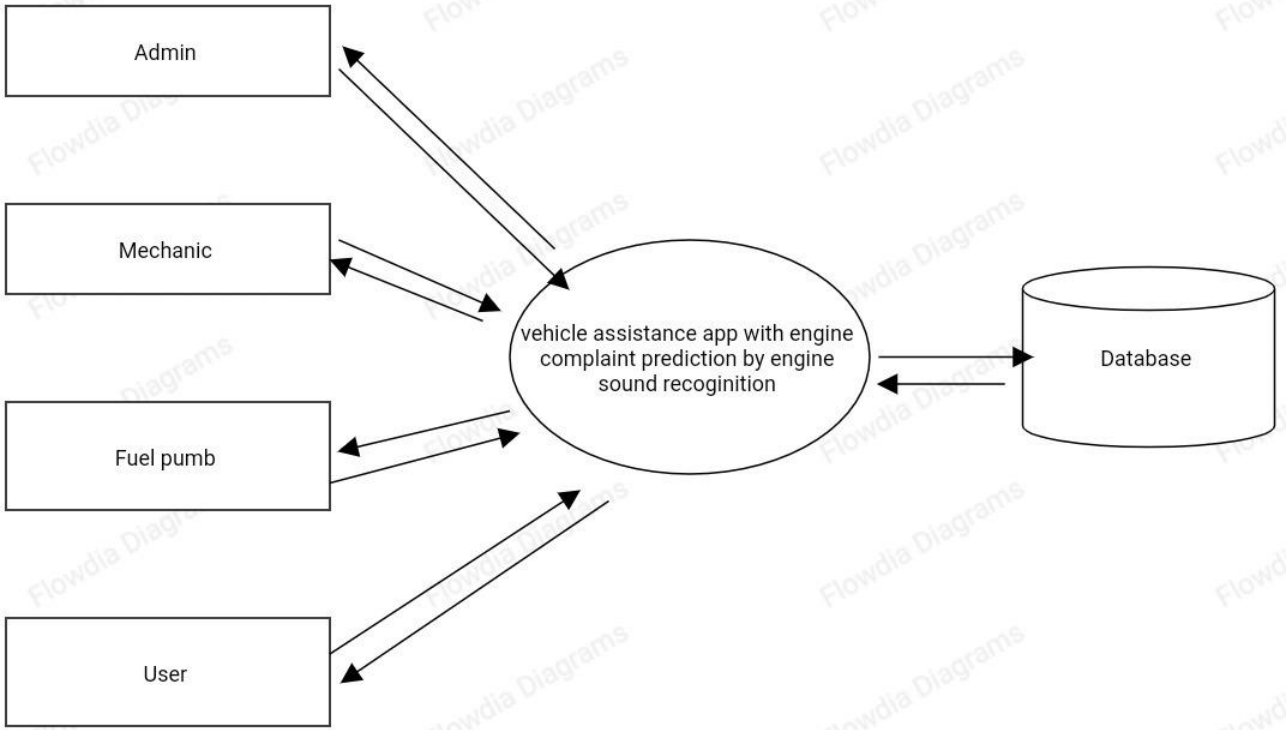

Work Status

- 27-01-2023 DFD created,Table created,Form design
- 28-01-2023 Web Coding,Template started
- 30-01-2023 Template completed,validation
- 03-02-2023 Web services
- 11-02-2023 Web completed & Android started
- 15-02-2023 Android design (user module)
- 17-02-2023 Android design
- 22-02-2023 Android Activity connection
